Description : Description du produit There was just something about her... Like many twenty-one year olds, Star Wood Leigh works two jobs to make ends meet: the day shift at Talon's Nail and Tan Spa, and the night shift at Mother Pearl's Steak Oyster Emporium. The archetypal tomboy at home in jeans and a T-shirt, Star is guileless but beguiling, a fresh-faced beauty who knows that too much of a good thing is wonderful. A loving daughter, a good friend, and a faithful girlfriend, this Florida native leads a full life with more than her share of sun and fun. And yet, she lives with a spider sense that something is missing. It was her beloved grandfather, Papa Jens, who urged her to embrace all that life has to offer. Accepting this advice, Star is shocked to learn that an innocent evening at a football game can set off a chain of life-altering events. One minute she's cleaning the tanning beds at Talon's and the next she's being primped and prodded in preparation for the cover of a national magazine. What a difference a day makes. Playful, bawdy, and curl-your-toes-sexy, Star is a breathless romp through tinseltown and tabloids. An insider's look at the world of

inflated egos and inflated bodies, Star goes well beyond the clichéd air-kisses and casting couches of Hollywood to show what really happens when A-list meets D-cup, when girl becomes goddess.

Présentation de l'auteur There was just something about her... Like many twenty-one year olds, Star Wood Leigh works two jobs to make ends meet: the day shift at Talon's Nail and Tan Spa, and the night shift at Mother Pearl's Steak Oyster Emporium. The archetypal tomboy at home in jeans and a T-shirt, Star is guileless but beguiling, a fresh-faced beauty who knows that too much of a good thing is wonderful. A loving daughter, a good friend, and a faithful girlfriend, this Florida native leads a full life with more than her share of sun and fun. And yet, she lives with a spider sense that something is missing. It was her beloved grandfather, Papa Jens, who urged her to embrace all that life has to offer. Accepting this advice, Star is shocked to learn that an innocent evening at a football game can set off a chain of life-altering events. One minute she's cleaning the tanning beds at Talon's and the next she's being primped and prodded in preparation for the cover of a national magazine. What a difference a day makes. Playful, bawdy, and curl-your-toes-sexy, Star is a breathless romp through tinseltown and tabloids. An insider's look at the world of inflated egos and inflated bodies, Star goes well beyond the clichéd air-kisses and casting couches of Hollywood to show what really happens when A-list meets D-cup, when girl becomes goddess..com Who knew? Pamela Anderson's debut novel Star is funny, sexy, and utterly compelling--a must read for chick lit fans, subscribers to US Weekly, and anyone with an ounce of curiosity about Hollywood. Still not convinced? Here are three reasons to read Star: it offers a gossipy glimpse into the extravagant lives of the rich and shameless; its funny--filled with laugh-out-loud memorable moments; and most surprising, its got a lot of heart--don't be surprised if you find yourself falling for this sweet, naive, and lovable heroine. Anyone remotely familiar with Anderson's life will recognize the playfully disguised true story behind Star Wood Leigh's tale--how a tight t-shirt and a football game led to her appearance in Mann Magazine, an accidental audition landed her a spot on the home improvement send-up Hammer Time, and a show called Lifeguards, Inc confirmed her arrival on the Hollywood scene. Anderson's book is delightful--a playful blend of fact and fiction that's a treat to read. The sex kitten with a heart of gold may be a familiar story, but Star offers what even the best chick lit and romance novels cannot--authenticity. Star is a novelization of Pamela Anderson's life, and while its debatable what's fact and what's fiction (you'll never look at the Hollywood sign the same way again), the point is that it all could have happened to her. Star ends with a bit of a romantic cliffhanger, but anxious readers shouldn't fret--Anderson is hard at work on Star's sequel, a "great exciting romance" featuring the face-licking, impish Jimi Deed. --Daphne Durham From Publishers Weekly In Anderson's lighter-than-air debut, our titular heroine bears more than a passing resemblance to the author herself. Aspiring cosmetologist Esther Wood Leigh, nicknamed "Star" as a kid for her irresistible charm, is impossibly naive, untenably good-hearted and utterly pneumatic when a marketing exec from Zax beer discovers her, um, magnetism at a football game. In remarkably Anderson-like fashion, Star goes on to grace the cover of a Playboy-like magazine, land a role in a Baywatch-like television series and get entangled with a string of Tommy Lee and Kid Rock-like rock stars. Naturally, her path to A-list celebrity is punctuated by a steady stream of lighthearted, cringe-inducing sexual adventures with actors ("not the most imaginative lover, but like a favorite dildo, he was always ready to go"), moguls ("the strained notes of the aria trailed up and concluded in concert with their own activity"), mechanics ("So which of these has the most comfortable backseat?" she asked, ad-libbing wildly") and the occasional gang of naked strangers ("Star was still having sex, but she no longer had any idea with who"). Anderson's range is predictably limited, and she abandons quite a few unrealized plot threads along the way. This thinly veiled novelization of her own life doesn't pretend to be anything but trashy and cheesy, which gives it an amiable charm.
