Description : Description du produitFirst. The fallacy, which has from time immemorial been almost universal among workmen, that a material increase in the output of each man or each machine in the trade would result in the end in throwing a large number of men out of work.

Prsentation de l'diteurHardPress Classic Books SeriesPrsentation de l'diteurHardPress Classic Books SeriesBiographie de l'auteurFrederick Winslow Taylor (March 20, 1856 March 21, 1915) was an American mechanical engineer who sought to improve industrial efficiency. He is regarded as the father of scientific management and was one of the first management consultants. Taylor was one of the intellectual leaders of the Efficiency Movement and his ideas, broadly conceived, were highly influential in the Progressive Era.

Taylor summed up his efficiency techniques in his book 'The Principles of Scientific Management'.
